Sec. 604, of said title, lists the affected townships and defines the term Drybed Lands. Sec. 605(b)(2)(A), of said title, provides: "Notwithstanding any provision of this title, the Indian Nations do not relinquish any right, title, or interest in any lands which constitute the Wetbed Lands subject to the navigational servitude exercised by the United States on the Wetbed Lands." Sec. 604, defines "Wetbed Lands" as "...those Riverbed Lands which lie below the mean high water mark of the Arkansas River...". Sec. 605(b)(2)(C), of said title, provides: "...the Indian Nations do not relinquish any right, title, or interest in any lands or minerals of certain unallotted tracts which are identified in the official records of the Eastern Oklahoma Regional Office, Bureau of Indian Affairs." The specific exclusion in this township is: unallotted Tract 422, located within Lot 2, Sec. 26.

This supplemental plat, in 8 sheets, representing the ordinary high water mark (OHWM) of the 2003 left and right banks of the Arkansas River, as digitized from aerial photography, (identifying said riverbed as instructed by Public Law No. 107-331, enacted December 13, 2002), the boundaries of the historic riverbed in certain sections, the calculated acreages of the Arkansas Riverbed and the amended bearings and distances of certain surveyed lines, is based upon the plat accepted September 28, 2004.

Bearings and distances depicted in parentheses on certain lines represent calculated data. The intersections of the 2003 digitized banks with surveyed lines were not verified by a field survey.
